DETAILED ACTION

Claim Rejections - 35 USC § 112

1. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

2. Claims 1-7, 9-12, 14-22, 24 and 42-47 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

In claims 1, 9, 11, 14 and 20, the independent claims, the phrase "a cationic material that is residing on said at least portion of said fibers..." lacks of sufficient antecedent basis, since it was never established that the fibers included any cationic material(s)." It is also unclear if those counter ions are the active agents previously recited or some other particles, which were not described.

Claim Rejections - 35 USC § 103

3. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

4. The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

Claims 1-7, 9-12, 14-22, 24 and 42-47 are rejected under 35 USC §103(a) as anticipated by Giglia et al., US Patent No. 4,929,502 in view of Sawan et al., US Patent No. 5,817,325.

This rejection is set forth in the prior Office action mailed on April 17, 2007.

Response to Arguments

Applicant's arguments filed on August 17, 2007 have been fully considered but they are not persuasive.

Applicants argue that the secondary reference does not teach the precipitation of the biological agent on the fibers or the active particles, but they teach a coating of the microbiological interception agents. The arguments are not convincing for the following reasons:

- Applicants argue only the secondary reference, while the rejection was based on a combination of references, i.e., a piecemeal analysis. Note that it has been held that one cannot show nonobviousness by attacking references individually where the rejections are based on combinations of references. See *In re Keller*, 642 F.2d 413, 208 USPQ 871 (CCPA 1981); *In re Merck & Co.*, 800 F.2d 1091, 231 USPQ 375 (Fed. Cir. 1986).

Coating the microbiological interception agent onto a substrate is only a preferred embodiment of the US'325 reference. Note that they teach that adding the interception agent can be done either by producing it, i.e., making it first, and then adding to the substrate or can be formed *in situ* in the substrate, see for example, column 4, lines 3 through 10. Moreover, the precipitation of additives onto papermaking fibers is well known in the art, (it is calling loading of the fibers),¹ and therefore, loading the fibers with an antimicrobial intercepting agent would have been obvious to one of ordinary skill in the art. Note that recent court decision, KSR, forecloses the arguments that a specific teaching, suggestion, or motivation is required to support a finding of obviousness. See

¹ See for example US Patent Nos. RE 35,460, 5,679,220, 6,599,390, just to cite a couple.

Conclusion

5. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
